PSYCHOLOGICAL STRATEGY BOARD
WASHINGTON

May 27, 1952

MEMORANDUM TO: MR. FRANK G. WISNER
Deputy Director/Plans
Central Intelligence Agency
Washington, D.C.

SUBJECT: 10/5 Interim Approval.

As you will recall, the interim approval of the "Packet" was not signed on Thursday last because Mr. Bruce had some reservations. According to his staff, these are removed by amending the last proposed interim approval to eliminate certain language and to include the language contained in paragraph 2. (See attached.)

These State Department amendments were discussed during the last two days. I would appreciate it if prior to making any changes yourself, you would telephone me.

Deputy Director

[redacted] called Mr. Wisner yesterday to put him on notice about a document he is sending over here. (There was no precise subject mentioned.) But something called "interim approval" is involved. It seems David Bruce raised a couple of questions at the last PSB luncheon and since then PSB people have had some sessions with Messrs. Nitze, Stell and Joyce about these questions. As a result this paper was prepared as something the State men are willing to recommend to David Bruce. [redacted] doesn't think it is well drafted but it does what PSB wants it to do and meets the requirements of the State people. [redacted] doesn't want it changed in any way as he fears if a word is altered, even in the interests of better drafting, State will object, and won't recommend it to Mr. Bruce.

A copy has gone to ADPC in the usual course -- the one coming to Mr. Wisner is extra. Mr. Wisner told [redacted] he would keep an eye out for it.
